RESEARCH INTERESTS

I build multi-agent intelligent systems that continually learn. My recent work focuses on efficient multi-agent neural memory and scalable robust test-time retrieval for scientific domains. My broader background spans reinforcement learning, scientific ML and applied mathematics.

EDUCATION

University of Texas at Austin — **Austin, TX**
Ph.D. in Computational Science, Engineering, and Mathematics (CSEM) — Expected Dec 2027
Advisor: Richard Tsai

University of Wurzburg — **Wurzburg, Germany**
MS in Mathematics and Artificial Intelligence — Awarded Feb 2023
Advisors: Richard Tsai (Austin), Christian Klingenberg (Wurzburg)
Study Abroad at University of Texas at Austin

Technical University of Munich (TUM) and University of Wurzburg — **Munich, Germany**
BS in Mathematics and Computer Science — Awarded May 2021
Advisor: Andreas Hotho
Study Abroad at Norwegian School of Economics, Data Science Program

EXPERIENCE

Google X, *PhD AI Resident* — **Mountain View, CA**
Undisclosed Moonshot in Continual Learning — Dec 2025 – Present

University of Texas at Austin, *PhD Researcher* — **Austin, TX**
Oden Institute; Advisor: Richard Tsai — Feb 2024 – Present

KonzeptAI, *Co-Founder & CTO* — **Wuerzburg, Germany**
Startup for agentic sales process optimization — Jan 2024 – Oct 2024

Bloomberg, *Software Engineer* — **London, UK**
Full-Time, Applied Machine Learning and Forecasting — Feb 2023 – Feb 2024

University of Wurzburg, *ML Researcher* **Wurzburg, Germany**
Data Science Lab; Advisors: Andreas Hotho, Julian Tritscher, Padraig Davidson Dec 2020 – Aug 2021

KPMG, *Data Science Intern* **Munich, Germany**
Financial Modeling Feb 2020 – May 2020

Max-Con Data (acquired), *Machine Learning Research Intern* **Wurzburg, Germany**
Startup in Predictive Modeling and Data Jun 2019 – Nov 2020

PUBLICATIONS

Multi-Agent Learning with Individual and Shared Neural Memories. *in preparation* Oct 2026

Robust Test-Time Memory: When Should Surprise Become Learning? *in preparation* Aug 2026

Luis Kaiser, Richard Tsai, Christian Klingenberg. "Efficient Numerical Wave Propagation Enhanced by an End-to-End Deep Learning Model." *ENUMATH 2023, Springer Nature.* April 2025

THESES

Luis Kaiser, Christian Klingenberg, Richard Tsai. "Wave Propagation aided by Deep Learning." *Master's thesis, University of Wuerzburg.*

Luis Kaiser, Padraig Davidson, Julian Tritscher, Andreas Hotho. "Improvement of Deep Reinforcement Learning Agents for Algorithmic Trading." *Bachelor's thesis, University of Wuerzburg.*

TEACHING

CS 378: Computational Systems Senior Design – Teaching Assistant Fall 2025
Co-led student engineering teams with Prof. Raghav Mahalingam, University of Texas at Austin

Algorithms and Data Structures – Teaching Assistant 2020
Designed and co-taught CS curriculum led by Prof. Andreas Hotho, University of Wurzburg

SELECTED TALKS

"Self-Improving Systems for Machine Learning." *Google X, Internal Speaker Series.* June 2026

"Playing Games Using Monte Carlo Tree Search Guided by Partial Differential Equations." *UT Austin, Center for Autonomy.* Oct 2024

"Deep Reinforcement Learning and Monte Carlo Tree Search in Game Theory." *University of Wurzburg, Department of Mathematics.* Sept 2024

"Learning a Differentiable Foundation Model of Wave Dynamics for Fast, Scalable Forecasting." *University of Wurzburg, Department of Mathematics.* Apr 2024

"Fast, Accurate, and Scalable Numerical Algorithms: Enhancement by Deep Learning." *Texas Advanced Computing Center (TACC) - AI Consortium.* Apr 2024

"Deep Learning for Wave Propagation - Neural Operators and Surrogate Models." *University of Wurzburg, Department of Mathematics.* Jan 2023

LEADERSHIP AND AWARDS

Member of CS PhD Approval Committee, University of Texas at Austin	2025
E-fellows Scholarship based on career potential and research (awarded to $<5\%$ of applicants)	2017-2024
UT Austin Graduate Scholarship ($47,000 total, awarded to $<2\%$ of applicants)	2022
Autonomous Multi-Agent Reinforcement Learning Competition at UT Austin, 2nd Place [details]	2022
UT Austin A-League Men's Soccer Champion as the team captain	2022
